

Instruction

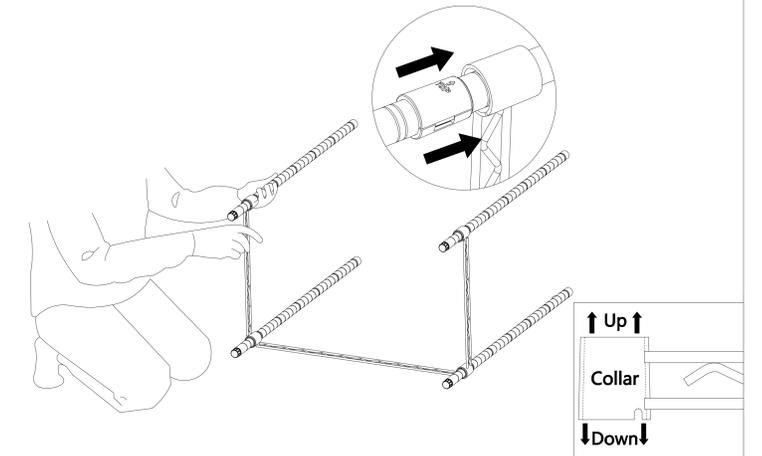

Assembly Step:

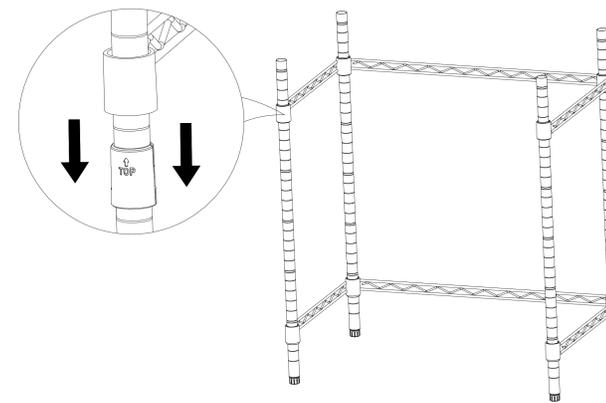

① Screw the Leveling Feet(G)into the bottom of four Lower Pole(C).Then snap Plastic Clips(F)into the grooves of four lower poles at the same position.Make sure the arrow of plastic clips are pointed up

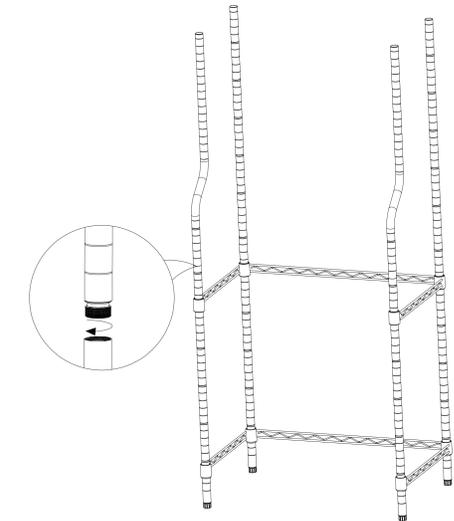

② Please make sure that you have the Door Shape Frame(B) the correct way up.Hold it on its side and slide the top of each lower pole through the bottom of the frame and its corners until there is a snug fit.After four poles have been slid through the frame collar holes, set the shelf upright.

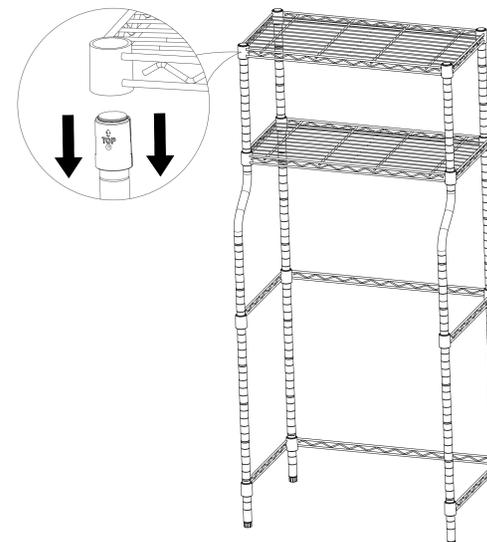

③ Snap plastic clips into the grooves of four lower poles at the same position,then slide the second door shape frame onto the plastic clips.

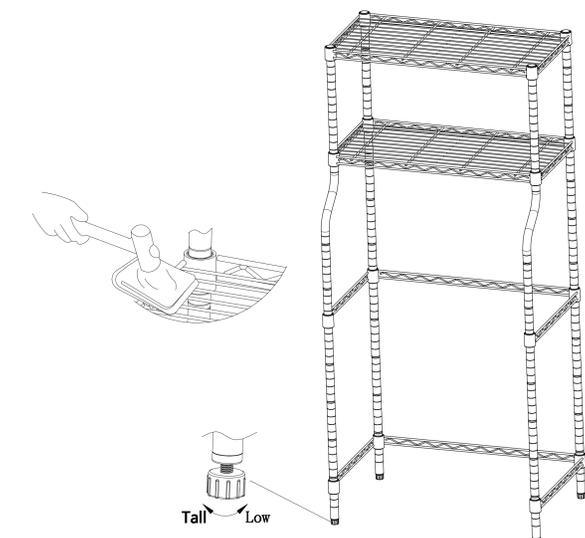

④ Screw Upper Poles(D)and Bend Pole(E)into lower poles by screw connectors which are already on the upper poles.

⑤ Repeat step 3 to ssemble the rest of wire shelf at the position you desire.

⑥ Push firmly down the corners of every shelf using a rubber mallet to ensure the shelf in place over the plastic clips.
